great
Ruth was a great GSI and explained content just as well as if not arguably better than the professor (granted, she was in a classroom with ~20 students).
She did a great job giving individualized attention. She could sniff out when someone didnt understand something, and speak to them privatley during worksheets and explain it to them, which I really appreciated.
Ruth is a great teacher. When I often struggled to understand certain concepts from lecture, it would always make more sense after her discussions.
